ATTENTION PARENTS:

Following Saturday's rehearsal, we would like to gather material for building our set. There are a number of items in the sheds behind the theater that we need to move into the theater. Also, we need to pull together the materials in back stage that we will need to build the set. We want to begin building the sets the following week (2/22). If you are able to please let me know if you are available to help build Monday or Wednesday afternoon or evening. (ted4900@gmail.com). When I know when folks are available, I will send out details on getting together.
