

Cast Headshots

Headshots are taken to introduce our talented performers, primarily on social media. With headshots, we are featuring you as the *performer*, not the *character* you play.

General Guidelines for Headshots:

- Wear a **plain/solid** shirt (no logos, writing, pictures, graphic designs, images, etc.). The shirt should be in good condition without rips or tears.
- Hair should be neatly combed and groomed. Please bring a comb or brush and hairspray or gel to touch up if needed.
 - Long hair should be pushed back, tied back or otherwise contained.
- Girls/Ladies may wear **light** makeup only if they prefer. Heavy makeup interferes with the retouching process and may produce undesirable results.

Your production staff may have certain other guidelines for your headshots.

If you have questions, please check with your production staff.
